SPONSOR INFORMATION
CONTACT: **SPONSOR@METROHACKS.CO**

WHY SPONSOR?

MetroHacks is the premier hackathon in the Northeast for high schoolers, by high schoolers. We're bringing over 200 young hackers from the greater Boston and MetroWest area to Cambridge to collaborate and build amazing things.

INSPIRATION

Every student remembers their first hackathon. As a sponsor of MetroHacks, you have the opportunity to make a lasting impact on a new generation of creative thinkers and engineers, and bring computer science education to a diverse group of talented people.

EXPERIMENTATION

At MetroHacks, you can stress-test your APIs and products to their limits. By bringing your products to MetroHacks, you'll see your products used in creative ways and get invaluable feedback.

RECOGNITION

At MetroHacks, you can put your product and brand in front of hundreds of receptive, enthusiastic high schoolers. Get a chance to mentor future innovators and builders, and market your product at the same time.
